

Our goal is to empower independent agencies with the right tech to help them work better, save time, and increase efficiencies. The platform is designed for ease of use and to streamline the quote process and eliminate duplicate entry.

THE PRODUCT:

- Creates an additional distribution channel for independent agent carriers
- Increases visibility and exposure to classes of business that have previously been difficult to attain
- Allows you to easily access quotes performed on the Tarmika platform. Quotes are saved in the carrier quote page in order to continue the bind process and "block" other agents from quoting the business

THE FEATURES:

You can (directly from our platform):

- Email your company specific underwriter
- Print a carrier-specific proposal
- Generate ACORD forms
- Upload loss runs or photos
- Refer to your E&S providers
- Bridge to the carrier portal to continue the bind process
